Hey Steve,

If and when you're able to tell us what the resolution was, we'd appreciate it. The USCG rep here in the NRCC tonight (not an ESF-10 rep) was getting questions on the issue from someone in D8, and while I was able to explain what the situation was, and show him your email indicating that the issue was resolved, it would be helpful to know how it was addressed.

I found the RRF and the actual \$8.6 million MA in WebEOC, and I noted that LCDR Cox was listed as the Action Officer, yet we got the money. I bet that was disappointing. If Allison is working with/near you, please send her my regards. We worked together on RRT2 when she was up in D1.

Thanks,  
Steve

Bill, it has been taken care of at the regional level... USCG will brief out the NPFC at 1500 hours central on the resolution...

**With Regards, Steve**

Hi Steve,

OEM thinks this needs to be resolved by the Region. Look at it and give me a call and let me know what you think. The positive thing they did say is that it doesn't have to be resolved today.

Going for coffee. Bill

Hi Bill

We have an issue that will need to be worked through the ESF 10 desk through Steve Mason in Region 6. Please see the email below from the OEM contact for our CERCLA IA with the USCG.

OEM mgmt. and the NIC have discussed.

I am also attaching the Region 6 Harvey MA (\$8.5M)

Please pass on that all the total funds are obligated in the agency financial system.

Call if you want to discuss. My number in the EOC is 202 250-8906

Lisa,

I want to bring to your attention that we may be getting ready to use all of our current CERCLA funding in order to respond to Hurricane Harvey related spills. I understand that EPA has received \$8.6M in ESF-10 funds, but to date has not distributed any to the Coast Guard, which means that we will be forced to respond to all HAZMAT and Mixed spills utilizing our current Multi-Incident CERCLA funds. I'm not sure what pull you may have with Region 6 in order to have them provide the Coast Guard with some of their ESF-10 funding, but If don't, I am sure that you will end up having to scramble and search for additional CERCLA funds to provide us in order for the Coast Guard to continue with our mission. I look forward to hearing from you soon!!

/r
